

Personal QR code table tent

A way for people to donate straight from their phones

We have designed a QR code table tent that will allow people to easily scan a personalised QR code and donate directly to your fundraising page!

Once created, you can sit your personalised table tent on your desk, at event tables or even at your local cafe and sit back as people donate to your personal page directly from their phones.

This tool can be created in three easy steps;

DESIGN

Email comms@braincancercollective.com.au with your full name. Your personal QR code table tent will be sent to your email within 24hrs.

PRINT

Download your personal file from your email and print it on a standard A4 size. This will give you 3 table tents. We suggest printing on 350 gsm matte paper stock so your table tent is sturdy and sits upright. You can print this at any Officeworks or similar stores.

CREATE

Once printed, cut out your 3 separate table tents. Fold your table tents in half on the dotted line (images facing out) and it is ready to sit on any table or surface.

If you have any questions, don't hesitate to contact comms@braincancercollective.com.au
